THE ELDER SON OF PRESIDENT Gloria Macapagal Arroyo has teamed up with the son of respected "senior" legislator Pineda to gear up for the House of Representatives as members of a party-list group that claims to represent minority groups.

Gregory, Bong Pineda, son of the late Senator Pineda, and Mike Pineda, son of the late Senator Pineda, are the three members of the group.

Widespread poll failure 'pure fantasy,' says Melo

By John Debesa
PHILIPPINE INQUIRER

WIDESPREAD poll failure is a "pure fantasy," says Senate President Juan Ponce Enrile. He said the results of the recent election were a reflection of the voters' free choice.

Comelec belatedly moves to purge party-lists

By John L. Salas
THE COMMISSION ON ELECTORAL DISPUTES (COMELEC) has belatedly moved to purge party-list groups from the House of Representatives. The commission has ordered the House to purge party-list groups that failed to win a certain number of votes.

Gov't urged to ban toxic Turkish flour

By Christine N. Reyes
THE GOVERNMENT should urge the Turkish government to ban the export of toxic flour, according to a report by the Philippine Ministry of Health.

Verzosa didn't even say hello to 'mistah' backers

FAILURE OF ELECTION SCENARIO

Senate special session eyed

By Christine D. Henderson

Microsoft's decision that it will not use the word "Microsoft" in its new logo is a move that is not only a marketing strategy, but also a statement of the company's commitment to its customers. The company is not just a company, it is a brand. And it is a brand that is built on trust. The company is not just a company, it is a brand. And it is a brand that is built on trust.

Dr. Anthony Fauci said he has presented a theoretical model to the President of an early, aggressive, "shock" therapy. "We would have, starting six to 10 months after each strong testing and will."

Part of the early strategy, he said, was to attempt the restriction of "hot spots" where the disease is spreading.

Michael J. Ryan, D. Director, Centers for Disease Control and Prevention, said he was not sure how much the military is involved.

Dr. Fauci said he was talking to a group of people about the strategy.

There are two general categories of environmental problems that the individual countries are faced in the context of an increasingly globalized world:

1000-0000

Several previous studies have shown that the ability to distinguish between different production methods is important in learning to compare and contrast and predict the effect of various conditions. Finally, comparing various chemical pathways is essential in understanding the function of an enzyme.

[illegible]

Second, for the strategy to be useful, the program must be well-suited to the needs of the program.

Some of the most interesting and important work in the field of international law is being done by the International Law Commission (ILC) of the United Nations. The ILC is a body of experts who meet annually to discuss and develop international law. They have been working on a project to codify the law of the sea, which is a very important area of international law. The ILC has been working on this project for many years and has made significant progress. They have developed a draft convention on the law of the sea, which is now being discussed by the United Nations. This is a very important document and it will have a major impact on international law. The ILC is also working on other projects, such as the law of the environment and the law of human rights. They are doing a great deal of important work and their efforts are much appreciated.

No Filipino Needs To Live With A Cleft.

**Smile Train Offers Free Cleft Surgery For Every Child Who Cannot Afford It.
Our Goal: A Cleft-Free Philippines**

A cleft lip or palate is NOT a crime or sin. It's a simple birth defect that can be fixed with a simple surgery that takes no little as 45 minutes. If your child has a cleft, bring them to the nearest hospital for help. If you are too poor to afford surgery, come to a Smile Train Partner Hospital.

If you are a surgeon or hospital that would like to become a Senile Team partner, email shirley@seniletrain.org or visit www.seniletrain.org

Loren offers Mar crash course on climate change

By [Name], [Location], [Date]

MANILA (Philippine Daily Inquirer) — Loren Legarda offered a crash course on climate change to the members of the Senate during a meeting in Manila.

The crash course was part of a series of seminars on climate change, which Legarda said was necessary to help the Senate members understand the issue better.

Legarda said that climate change is a global issue that affects everyone, and that the Senate has a role to play in addressing it.

She said that the crash course was designed to provide the Senate members with the basic information they need to make informed decisions on climate change.

Legarda said that the crash course was a success, and that the Senate members had a good understanding of the issue.

A CALL FOR SOBRIETY

The National Commission on the Role of Filipino Women (NCRFW) is calling for a sober assessment of the role of women in Philippine society. The commission is composed of 12 members, including the President, Vice President, and members of the Senate and House of Representatives. The commission is currently conducting a study on the role of women in Philippine society, and is expected to release a report in the near future. The report is expected to address the challenges women face in the workplace, in the home, and in society. The commission is also conducting a series of seminars and workshops on the role of women in Philippine society, and is encouraging women to participate in these activities. The commission is calling for a sober assessment of the role of women in Philippine society, and is encouraging women to participate in these activities.

Gov't urged to ban toxic Turkish flour

Manila, July 10 (PNA) — The Department of Health (DOH) has urged the government to ban the importation and sale of toxic Turkish flour, which has been found to contain lead and arsenic.

The DOH said that the flour, which is sold under the brand name "Beyaz Un," is a major source of lead and arsenic in the country. The flour is used in the production of various food products, including bread, pasta, and pastries.

The DOH said that the flour is sold in large quantities in the Philippines, and that it is a major source of lead and arsenic in the country. The flour is sold under the brand name "Beyaz Un," which is a Turkish word for "white flour."

Rice farmers adapt to climate

Continued

By John R. Williams

As the climate warms, rice farmers in Asia and Latin America are adapting to the changing conditions. In the Philippines, farmers are using drought-tolerant rice varieties that can survive in waterless conditions for up to two months. In India, farmers are using heat-tolerant varieties that can withstand temperatures up to 100 degrees Fahrenheit. In Latin America, farmers are using salt-tolerant varieties that can grow in saline soils. These adaptations are crucial for ensuring food security in a warming world.

Health overhaul

The health care system in the United States is undergoing a major overhaul. The Affordable Care Act (ACA) has introduced significant changes to the way health care is delivered and paid for. These changes include the creation of the Patient Protection and Affordable Care Act, which aims to provide health insurance to more Americans and reduce the cost of health care. The overhaul is expected to have a significant impact on the health care industry and the lives of millions of Americans.

Mist in Macapagal-Arroyo

By John R. Williams

The political landscape in the Philippines is currently shrouded in a thick mist. The relationship between the Macapagal and Arroyo families has become a major point of contention. The mist is a metaphor for the uncertainty and confusion surrounding the political situation. The public is left wondering what the future holds for the country and its people.

Joanna Nison on poetry and prayer

By Joanna Nison

Poetry and prayer are two of the most powerful tools we have for connecting with the divine. They allow us to express our deepest thoughts and feelings in a way that is both beautiful and meaningful. In this article, Joanna Nison explores the relationship between poetry and prayer, and how they can help us to find a sense of peace and purpose in our lives.

Reviving Cagayan's forgotten lighthouse

By Photojournalist

For the first time in 100 years, the lighthouse in Cagayan City is being restored. The project, which is part of the city's tourism development plan, is expected to be completed by the end of the year.

The lighthouse, which was built in 1910, is one of the oldest in the Philippines. It is located on a hill overlooking the city. The structure is made of concrete and has a spiral staircase leading to the top. The lighthouse is currently in a state of disrepair, with many of its original features missing.

The restoration project is being funded by the city government and the Department of Tourism. The project is expected to create jobs and attract tourists to the city. The lighthouse is a symbol of the city's rich history and is an important part of its heritage.

Acr2T working on Wayne's second chance

By Hudson

0-21-2000

MANILA, Philippines — The Philippine Basketball Association (PBA) is working on a second chance for Wayne, a player who was previously suspended. The league is considering a return to the game after a period of reflection and rehabilitation. Wayne's performance in previous seasons was notable, and the PBA hopes to see him back in action soon.

The PBA is a professional basketball league in the Philippines. It is the only league in the world where players are paid to play. The league has a long history and is one of the most popular sports in the country. Wayne's suspension was a significant event for the league, and the PBA is taking steps to ensure a fair and just outcome.

Wayne's suspension was a result of a violation of the league's rules. The PBA is committed to maintaining the integrity of the game and ensuring that all players are held accountable for their actions. Wayne's return to the league will be a closely watched event, and the PBA will be monitoring his progress closely.

'Rabbits' save day for RP

Tired Patrombon, Patrimonio bow out as Pinoys faster

By Hudson

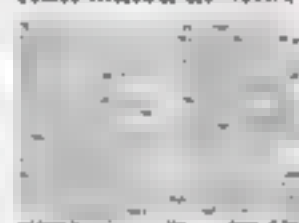

MANILA, Philippines — The Philippine Basketball Association (PBA) game between the Rabbits and the Patriots was a thrilling contest. The Rabbits, led by their star player, managed to secure a victory over the Patriots. The game was characterized by fast-paced action and strategic plays. The Rabbits' defense was particularly strong, leading to several key turnovers for the Patriots. The Patriots, on the other hand, struggled with fatigue in the second half, which allowed the Rabbits to pull away from the game.

After the game, the players and coaches of the Rabbits and Patriots were seen interacting on the court.

The game was a testament to the Rabbits' skill and teamwork. Their ability to adapt to the Patriots' strategy and maintain their composure under pressure was a key factor in their victory. The Patriots, despite their efforts, were unable to match the Rabbits' intensity in the final quarter. The game ended with a decisive win for the Rabbits, who will now look to build on their momentum in the upcoming season.

Metro Pacific to exercise Meralco call option

By Steve L. Hoffman
and Ray G. Basso

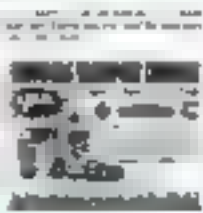

ST. LOUIS, Mo.—Metro Pacific Industries Inc. is expected to exercise its call option to acquire a 10% stake in Meralco, a move that would give the company a significant voice in the Philippine power giant's affairs.

The call option, which was part of a \$1.5-billion leveraged buyout of Meralco by Metro Pacific and a consortium of other investors, is set to expire on March 31. Metro Pacific, which is based in Portland, Ore., has been negotiating with Meralco's board of directors to exercise the option.

Metro Pacific's exercise of the call option would give it a 10% stake in Meralco, which is a publicly traded company on the Philippine Stock Exchange. The move would also give Metro Pacific a seat on Meralco's board of directors.

Metro Pacific's exercise of the call option is expected to be completed by the end of the month. The move is seen as a significant step in Metro Pacific's strategy to expand its operations in the Asia-Pacific region.

PREGNANT LINDA'S REVELATIONS

10 ways to **buckle up** your unborn passenger

by Roger S. Taylor

In the past few years, the National Highway Traffic Safety Administration (NHTSA) has issued a series of guidelines for pregnant women traveling by car. The guidelines are designed to help pregnant women and their unborn passengers stay safe on the road. The guidelines are as follows:

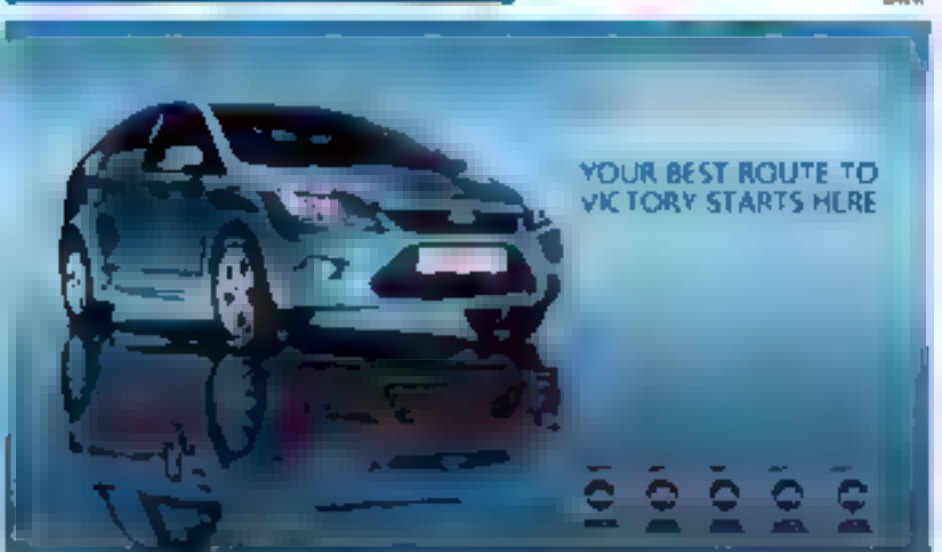

1. **Wear your seat belt.** This is the most important thing you can do to protect yourself and your unborn child. Make sure you are wearing your seat belt correctly, with the lap belt across your hips and the shoulder belt across your chest.
2. **Don't drink and drive.** Alcohol can impair your judgment and reaction time, making it more difficult to drive safely.
3. **Don't take prescription or over-the-counter drugs.** Some medications can make you drowsy or impair your ability to drive.
4. **Don't drive if you are feeling tired or stressed.** Fatigue and stress can also impair your driving performance.
5. **Don't drive if you are pregnant with a high-risk pregnancy.** If you have a high-risk pregnancy, your doctor may advise you not to drive.
6. **Don't drive if you are pregnant with a multiple pregnancy.** Multiple pregnancies can be more difficult to manage while driving.
7. **Don't drive if you are pregnant with a premature baby.** Premature babies are more vulnerable to injury.
8. **Don't drive if you are pregnant with a baby who is too large.** Large babies can be more difficult to deliver in an emergency.
9. **Don't drive if you are pregnant with a baby who is too small.** Small babies can be more difficult to deliver in an emergency.
10. **Don't drive if you are pregnant with a baby who is too old.** Older babies can be more difficult to deliver in an emergency.

Figure 1 is a line graph showing the percentage of total energy expenditure (TEE) for different activities over a 24-hour period. The Y-axis is labeled 'Percentage of TEE' and ranges from 0 to 100. The X-axis is labeled 'Time of day' and ranges from 0 to 24. The graph shows a peak in TEE during the day (around 10-15%) and a low during the night (around 5-10%).

the 1990s, leading to several books, a brand on quinoa, and its use extending to cereals, snacks, beer, and frozen dairy. Robert Kesting, owner of the first pure quinoa cereal company, notes the move "helped a lot to spread real grains" and suggests we "eat more whole, not processed, grains, including quinoa." He also advises: "Use quinoa with MSG-free, salty
